

XPERT DAIRY SYSTEMS INC.

Dealer & Service Partner Presentation

Company Overview

Xpert Dairy Systems Inc. (XDS) is a Central California based company specializing in manure pump repair, separator maintenance, agitator service, fabrication, and emergency dairy equipment support. XDS services dairies throughout the Central Valley and has built strong relationships with dairy operators by providing fast response times, dependable repairs, and hands-on field experience.

Why XDS Would Be a Strong Dealer & Service Partner

Unlike sales-only dealers, XDS works directly on manure systems daily. Our team has extensive experience with pump rebuilds, gearbox replacements, separator repairs, fabrication work, emergency service calls, and preventative maintenance programs.

What XDS Offers

- Equipment sales
- Pump and agitator repairs
- Parts stocking and support
- Emergency service
- Installation and startup assistance
- Preventative maintenance programs
- Warranty and troubleshooting support

Why Manufacturers Benefit

XDS already has strong dairy relationships throughout California's Central Valley. Our company is actively onsite at dairies every week, giving manufacturers a trusted local service and support partner that understands real-world dairy operations.

Our Goal

XDS is looking to establish long-term partnerships with manufacturers that value quality customer support, fast service response, industry knowledge, and long-term growth in California's dairy industry.
